BRIEF ABSTRACT OF LETTER

Requests sanction to the Harihar town Municipal Council's proposal to take over charge of the water works from the P.W.D. with effect from the current official year the Water supply Engineer to the Assistt. Engr. in-charge the machinery half yearly or once in a year

NOTES AND ORDERS

5 Attention is respectfully invited to Mr. Hutchins's D.O. note of the 9th June 1909 on the subject. In the Municipal Council's opinion it is cheaper for them to manage the water works themselves. The present Chief Engineer

Letter No.593 dated 18th August 1910 from the Executive Engineer, Water Supply & Stores Division, to the Chief Engineer of Mysore.

---

your un-official No.142/P.W.D. of the 12th instant forwarding for my opinion copy of letter No.32 of 23rd July 1910 from the President of Municipalities, Chitaldrug District to the Secretary to Government, General and Revenue Departments regarding the transfer of the water supply at Harihar from the charge of the Water Supply Department to that of Harihar Municipality.

With reference to the above, I have the honour to report as follows -

According to clause 3 of Chief Engineer Col.Campbell's note read in the Government Proceedings No.178-95/972-94 dated the 8th February 1904, sanctioning the formation of the "Water Supply & Stores Division", this Division has to be in charge of all the Pumping Machinery, even in cases where the water supply is handed over to the Municipality.

In the case of Harihar, the Pumping Machinery has to be under our charge unless the Government orders otherwise.

As the Water Supply is such a small one, it will not be worthwhile trying to split it into two i.e , Pumping Machinery and Distribution. It must be under one Department

From the tone of the Municipal resolution, it would appear as if this Division was asking a favour of in being allowed to keep it under its charge for a year. On the other hand, it was a favour shown to them for which the people of

Harihar ought to be grateful. If they are willing to manage it and if the Government orders it, I have nothing to say against the proposal It is no doubt desirable to encourage thrift and self help But I am doubtful if the good people of Harihar are yet fit for it The Deputy Amildar will ere long find his charge a troublesome one If the works are to be handed over, they must be distinctly informed that the full responsibility of maintaining the plant will rest on their shoulders and that this Department will no doubt help them, now and then, but that the Municipality should not be led to believe that as a matter of right they can call upon this Department for help in their hour of need I am led to believe that the people of Harihar have got accustomed to see the tanks full of water every day apparently without any great effort by this Department They believe they can quite as well manage the show themselves They also believe that the have only to get a Driver and give him the oil and the tanks must go on filling every day Let them try and they will realize for themselves what troubles they have in store

Sir,

Adverting to Government Order No. 13100-3
Mbs. 306-08-10 dated the 28th June '09 directing
that Harihar town water works do continue
to be in charge of the Public Works Department
till the end of June 1910, I have the honor
to state that the Municipal Board of
the town have in their meeting convened
on 31st May 1910, resolved to take over
Charge of the above water works with
effect from the current official year
As originally proposed the water works
were in charge of the Department of
Public Works for sufficiently long
period

and they had every chance of seeing, if any improvements and alterations were needed to the machinery &c The Municipality is now able to manage the water works

The Water Supply Executive Engineer or Assistant Engineer may come and inspect the machinery at any time half yearly or once in a year.

I am told that the Assistant Engineer inspected the water works in August last

The officer in charge is a low paid official, and as such it is desirable that the Deputy Builder who is on the spot should have control over the working of the water supply to this town

I request that you will, therefore, be so good as to move the Government to sanction the above proposal

A Copy of the Board's resolution on the Subject is, herewith, Submitted.

Sir,

Adverting to your docket No 3239 — Mel 78-10-2 dated 6th October last re the management of Harihar Waterworks I have the honor to submit herewith a copy of the resolution passed by the Municipal Council of Harihar town and to state that on a further consideration of the matter they have arrived at a conclusion that the Water works do continue to be in charge of the P.W.D. as it does not seem advisable for them to assume the

full responsibility of maintaining the Plant in proper order I agree with the opinion of the Council

It is reported that the works are being hitherto managed in an efficient Condition under the Supervision of the Water Supply and Stores Division, Executive Engineer

I therefore request that Sanction may kindly be accorded for the Continuance of the Work in the Charge of the said Officer until sufficient experience is gained of the working etc of the Machinery Connected therewith
